

Miles Ogrady Portfolio

Github - <https://github.com/miles5k>

Assignments - <https://github.com/miles5k/portfolio>

Accomplishments

1. Setting up the servers
2. Grep lab
3. Sed lab
4. Continue setup lab

1 Biggest Challenge so far?

Networking script(i want to add more)

regex

2 Moment you were most proud of so far.

Getting work done

3 One thing you will do to improve for the second half of the class.

Trying to stay on course and not fall behind, keep up with the weeks, do the wiki on time, go more into the learning modules/watch the videos.

4 One new thing you've learned so far

5 One thing you want to add or change to make this portfolio better for the final

Make it cleaner, use github sites to make it look more professional.
